

## **ELECTRONIC STEWARDSHIP**

Have you ever remembered when you are on vacation that you forgot to send your check to church? Have you been ready to write your check for the offering only to discover you didn't bring your checkbook? Pre-authorized bank drafting allows you to give your offering simply by signing an authorization to transfer a specific amount from your bank account on the date you choose.

### ***How does pre-authorized checking work?***

You fill out the simple authorization form below. You may mail it or put in an offering envelope. On the agreed upon day or days each month, the funds are transferred through the Federal Reserve's highly reliable Automated Clearing House (ACH) network. You may specify to continue indefinitely, or for a particular length of time.

### ***What do people gain by using pre-authorized bank drafts?***

Convenience. You specify the date or dates you wish the transfer to take place.

Security. Transactions no longer depend on the efficiency of the mail system or human hands.

### ***What does the church gain by offering EFT?***

Financial Stability. Money transfers at consistent intervals. Less time and money are spent handling traditional paper checks. We're increasing financial accuracy and accountability.

The bottom line is enhanced stewardship of our money and resources.
